"We have the right attitude!"

"exclusive provider of
offshore services"

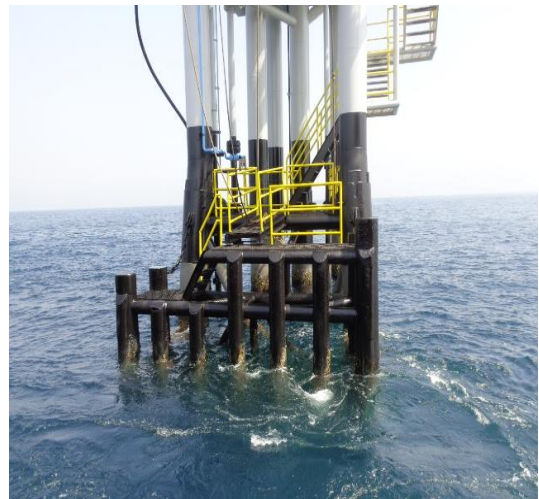

Offshore

Since QP started implementation of their Offshore Preventative Maintenance Schedule in 1978-1979, H.B.K. Oil & Gas Services Co. has been responsible for the great majority of corrosion control programme.

This has consisted of a planned programme of recoating the 410,000 square meters of the PSI, PS2 and PS3 facilities and associated wellhead jackets.

This does not include PS4, which to date has not been quantified, nor does it include Halul Island with its 9 crude oil storage tanks and associated pipe work and services.

The policy of QP is to let out annual contracts which typically cover 50,000-80,000 square meters of area and have to be completely self sustained. This has resulted in HBK Oil & Gas Services Co. becoming efficient in the handling and management of marine spreads; the servicing of men and equipment in difficult

environment; all to the exacting safety and time requirement of the Client, QP. HBK Oil & Gas Services Co. is currently carrying out all corrosion control protection coating activities at offshore for various clients such as QP, OXY & RasGas, as well as being sub-contractor on all shutdown work offshore, which speaks for itself.

Onshore

Apart from the offshore work, HBK Oil & Gas Services Co. is active onshore in the various Industrial Complexes. These includes QAPCO, QAFCO, QVC, Q-Chem, QASCO, NODCO, NGL, QP, OXY, RasGas and various industrial establishments.

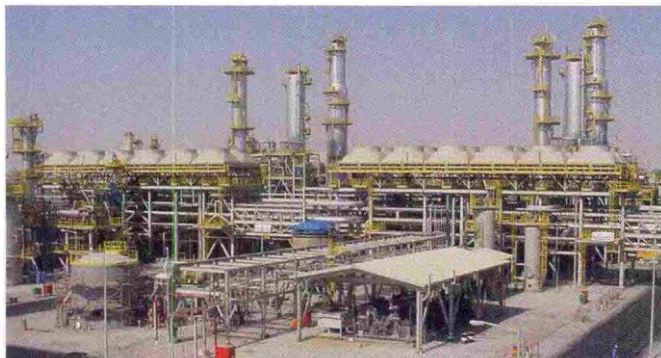

HBK organization has track record of completion of work within time frame and in accordance with the specifications at all times. Long list of satisfied clients is an indication to our relenting endeavours to meet the organization objectives and for customer satisfaction. Highlights of our capabilities onshore are the established facilities in our yard located in Salwa Road.

Ras Laffan Common Cooling Water System Project considered one of the prestigious and challenging contracts so far in Qatar was awarded to CCIC for construction and installation of carbon steel pipes for Qatar Petroleum. HBK Oil & Gas Services Co. stood up to demanding situation of handling surface preparation and coating of 8-12" pipes of about 3M diameter and 24M long daily.

Handling system, unique in its kind and innovative in design was built in record time fulfilling all safety requirements and was integrated with blast shop and paint shop.

We had also been awarded the prestigious blasting and painting scope of QAFCO-4 Expansion Project which was carried out successfully as per contractual requirement in our yard in Doha and Mesaieed simultaneously.

GENERAL SCOPE

H.B.K. Oil and Gas Services Co. W.L.L is a specialist Company in the application of corrosion protection products to the surfaces of buildings and industrial plants. The Company was found in 1973 and owned by Sheikh Hamad Bin Khalid Al Thani in association with Messrs Power Cleaning Ltd. of U.K.

The products used are generally high technology paints based on epoxy or polyurethane polymers, or other lining materials such as glassflake or glass reinforced plastics (GRP) with resins such as polyester, vinyl ester, or epoxy depending on the service requirements.

In order to apply these materials for optimum results, great care must be taken in the proper preparation of the substrate. It is this area that will determine the life of the applied coatings. To ensure that this is carried out properly, H.B.K. Oil and Gas Services Co. have a complete range of blasting equipment and accessories. These range from dry blast, wet blast, spin blast, and vacuum blast equipment. We utilize materials such as steel shot, steel grit, coal slag, copper slag, and garnet sand to carry out the preparation work conforming to the international Standards specified.

Also, as much of the work is maintenance work in live or shutdown plants, we have our own access capacity. This includes in excess of 750 tones of scaffold tubes, fittings and boards and our own fully qualified scaffolding squads. We also have forklifts, cranes, trailers and the other ancillary equipment associated with this.

Finally, to ensure that the work is carried out in a correct and efficient manner, H.B.K. Oil and Gas Services Co. W.L.L greatest asset is its staff of Project Coordinators, Site Engineers, QA/QC Engineers, Paint Inspectors, Supervisors who manage highly skilled workforce of blasters, spray painters, brush painters, scaffolders and general labourers.

This workforce has been together for many years. The supervisors have generally been promoted from within the workforce, and the inspectors are qualified to British Gas Inspection Standards. This makes for a cohesive and expert workforce who brings pride in their work to every site they operate on.

COMPANY INFORMATION

Company Details	
Name	HAMAD BIN KHALID OIL & GAS SERVICES CO.
Previous Name	HBK POWER CLEANING W.L.L.
Address to appear on Tender communications	POST BOX NO. 2903, DOHA – QATAR
Telephone number	44687174 / 44687176 / 44685699
Fax number	44687460
Country of registration	QATAR
Registration number	19389
Class of Company	WITH LIMITED LIABILITY
Address of registered office	AREA 14 FREIJ ABDULAZIZ, 339 WADI MUSHERIB ST.
Date Company Formed	1973
Paid-up Capital	1,800,000/-
Chairman	SHEIKH ALI BIN HAMAD AL-THANI
Bankers	COMMERCIAL BANK OF QATAR, QATAR NATIONAL BANK
Auditors	DELOITTE & TOUCHE
Business Time	SAT - WED : 8:00 AM - 5:00 PM and THR : 8:00 AM - 2:00 PM

TO WHOM IT MAY CONCERN

This is to certify that Messrs HBK Power Cleaning W.L.L have undertaken Painting and Scaffolding work for NODCO Expansion Project, Mesaieed Qatar during Dec. 2000 - Dec. 2001 as one of the main contractors.

The Scope of Contract included Blasting, Painting and Scaffolding works for whole project.

We are pleased to confirm that HBK Power Cleaning W.L.L carried out the above mentioned works to the best satisfaction of LG Engineering and Construction Corporation. Their Staff and Workers performed the scope of work efficiently and in a professional manner. The Contract has been completed according to the Project Schedule.

We take this opportunity to thank HBK Power Cleaning W.L.L management for their co-operation and services and wish them all the best in their future endeavours.

Thanking You,

Yours Faithfully,

J.W. MOK

Halul Offshore Services and HBK Power Cleaning W.L.L

Successful Completion of the PS1 Remote Coating Contract of OXY (Completed 99,221 M2 with in four years)

Halul Offshore Services Company and its sub-contractor HBK Power Cleaning were given safety awards by Occidental Petroleum of Qatar in recognition of their remarkable performance and successful execution of there PS1 remote coating contract. The press release by GULF Times on 11 February 2008.

Halul Offshore Services Company, the Qatari Offshore Support Services Company and their Sub Contractor HBK Power Cleaning received Safe Completion Awards from Occidental Petroleum of Qatar in recognition of their remarkable performance and successful execution of the PS1 remote coating contract.

The PS1 remote coating contract was awarded to HOSC in October 2003 for scaffolding, blasting and coating an area of 61,800 M2 within a term of 3 years. HOSC started the contract in April 2004.

Within three years time an area of 78,123 M2 was completed and handed over. During Dec. 2006 the contract was extended for one more year and in 2007 they completed 21,448 M2, TOTALING TO AN AREA OF 99,211 M2 WITHIN 4 YEARS PERIOD.

Four Accommodation Work Ships were utilized throughout the four years contract duration with an average work force of 175 persons daily. Total man hours from April 2004 to 31st Dec. 2007 were 1,627,469. Both Halul and HBK were stressing safety to the utmost point and the accident rate in four years time was just 0.13%. This is a remarkable achievement for Halul Offshore and HBK Power Cleaning.

The awards were presented to both Companies by Mr. Shawn Kerns, the Vice President of Occidental Petroleum Of Qatar in a function held at the AlDana Restaurant at Sharq Village and Spa on Thursday 31st Jan. 2008. Mr. Jeffrey Pigg, the Operations Manager and Mr. Jim McWhinnie, the head of asset integrity of Occidental Petroleum were present in the function. HE. Sh. Ali Bin Hamad Al Thani, the chairman of HBK Power Cleaning and the senior management of Halul Offshore were also present.

Nationality:

We have a diverse work force with people from different racial, educational and social backgrounds.

Majority of our work force hails from the following nationalities.

1. Jordan
2. Egypt
3. Indian
4. Bangladesh
5. Srilanka
6. Pakistan

Labour Accommodation:

We have one labour accommodation located at Salwa Road which can accommodate a minimum of 400 personnel's at a time.

We also have a labour accommodation comprising 2,500m² within Dukhan Fields.

Moreover, we have constructed a new labour accommodation at Al Khor that can accommodate 120 personnel's at a time.

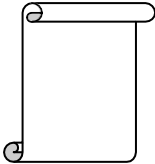

Laydown:

We have a laydown yard in Salwa Road to carry out in-house blasting, painting and fire proofing works.

We have another laydown yard totalling 3,000m² which includes site office facilities, material storage area and blasting & painting shop in Ras Laffan.

Moreover, we also have a laydown yard comprising 3,750m² within Dukhan Fields Area which includes site office facilities, material storage area and blasting & painting shop.

POTENTIAL EMPLOYERS SHOULD ALWAYS ASK TO SEE THE CERTIFICATE HOLDER'S ID CARD

To this end, H.B.K. Oil & Gas Services Co. has invested heavily in ensuring that their workforce includes sufficiently trained, experienced and qualified personnel to carry out this important task at all levels. To achieve this H.B.K. Oil & Gas Services Co. regularly engages the services of U.K.-based accredited organisations, to train and examine Company personnel to International Standards British Gas).

H.B.K. Oil & Gas Services Co. currently holds the following Inspectors:

Paint Inspector (British Gas)

CERTIFICATE OF UNIT CREDIT

This Certificate has been issued to
Gulam Jilani
by
The Construction Industry Training Board and
City & Guilds Joint Awarding Body
to mark the attainment of units towards a
National Vocational Qualification accredited by QCA.

Unit	Grade	Mark
Unit 1: Introduction to the Industry	1	100%
Unit 2: Health and Safety	1	100%
Unit 3: Quality Management	1	100%

DATE: 20/05/00
REGISTRATION NO: 00000001
F016

Qualifications and Curriculum Authority

CC/160/ 123838

Scaffolding Services forms an integral part of painting scope. Over the years, we have developed a strong force of scaffolders to cater for our contractual requirements offshore and onshore. Periodic in-house and third party training has rendered them best in the industry. Our Scaffolders and Supervisors are now trained and certified in QP approved courses by Applus Velosi Certification and CITB.

Quality Assurance

In January 1993, H.B.K. Power Cleaning's (now HBK Oil & Gas Services Co.) Senior Management made a commitment to produce and work to a Quality System in line with **ISO 9002**.

By the end of 1993, a workable Quality System conforming to **ISO 9002** was implemented throughout the Company's Operating Procedures.

During 1994, personnel were further educated and trained to operate the System. Procedures and working instructions were audited and changes, where necessary, were implemented to improve the Quality System.

A thorough assessment of our Quality Management System resulted in its approval and

HBK Power Cleaning achieved full **ISO 9002 Certification** from BVQI in April, 1997.

The Certificate has been revalidated in April 2000 for the next three years. As the revalidation of the certificates is done only after a comprehensive surveillance of the system by the certifying body, the revalidation in itself is an evidence of the maintenance of effective Quality System.

Transition to new Standard ISO 9001-2000 was completed during first part of 2003. Our QMS as per the new standard was assessed by BVQI during May 2003 and certificate of compliance to **ISO 9001-2000 was issued in Aug. 03 for next three years.**

BUREAU VERITAS
Certification

Hamad Bin Khalid Oil & Gas Services Company W.L.L.

Al Mamoura - Ain Khalid Area,
Near Vegetable Market,
P. O. Box: 2903, Doha

STATE OF QATAR

Bureau Veritas Certification Holding SAS – UK Branch certifies that the Management System of the above organisation has been audited and found to be in accordance with the requirements of the management system standards detailed below

ISO 9001:2015

Scope of certification

SURFACE PREPARATION AND APPLICATION OF PROTECTIVE COATING SERVICES FOR OFFSHORE & ONSHORE OIL & GAS FACILITIES.

Original cycle start date:	07th May 2013
Expiry date of previous cycle:	16th May 2016
Re-certification audit date:	02nd May 2016
Re-certification cycle start date:	09th June 2016

Subject to the continued satisfactory operation of the organisation's Management System, this certificate expires on: **16th May 2019**

Certificate No. IND 16.4076/U/Q

Version 2, Revision date: 16th September 2018

VISHAL BHAT - Certification Manager

CV'S & CERTIFICATES OF KEY PERSONNEL'S

CURRICULUM VITAE

NAME : **FAROUQ A. I. YASIN**

NATIONALITY : JORDANIAN

DATE OF BIRTH : 01.01.1952

QUALIFICATION : B.SC. CHEMICAL ENGINEERING

Basic Corrosion Sponsored by NACE

Oil Field Water System sponsored by Charles Patton

Corrosion Prevention by Cathodic Protection sponsored by NACE

Water Treatment for cooling tower sponsored by Center for Professional Advancement

Corrosion & Fouling Sponsored by UP Process Division

Industrial Corrosion Sponsored by Center for Professional Advancement

Corrosion control by Cathodic Protection Sponsored by Getty Oil Co. Research Center.

Attended many courses on painting and coating given by Hempel, Ameron & International Paint Cos.

LANGUAGES : ENGLISH & ARABIC FLUENT

TITLE : GENERAL MANAGER

WORK EXPERIENCES

❖ 2004 Jun. – Present : Hamad Bin Khalid Oil & Gas Services Co, Doha – Qatar

Position : General Manager

Responsibilities:

An organization with 450 employees which includes Project Manager, Site Engineers, Painting Inspectors, Supervisors, Foreman and Mechanics and Labor force. My duty is to control the overall Administration and Technical Operations of the company. The activities include the following:

- Industrial Painting – Coating & Wrapping – Fire Proofing – Insulation & Scaffolding.
- Other duty includes bidding, costing and purchasing heavy equipment and vehicles. Effective control over expenses and maximum utilization of manpower and equipment such as compressor, painting pumps. Arrange the work force to cope with situations such as offshore and onshore locations so as to achieve client satisfaction. Control over staff from Sr. Project Engineers, Supervisors, Estimators, Foreman, Technicians and Labor forces etc.

❖ 2000 – 2004 : Peiniger International Qatar, Thyssenkrupp Germany, PIQ

Position : General Manager

Responsibilities:

An organization with 150 employees which includes Project Manager, Site Engineers, Painting Inspectors, Mechanical & Welding Inspectors, Supervisors, Foreman and Mechanical & Labor force. My duty is to control the overall administration and technical operations of the company. The activities include the following:

- Industrial Painting – Coating & Wrapping – Fire Proofing – Insulation & Scaffolding.
- Other duty includes bidding, costing, recruitment of personnel and purchasing heavy equipment and vehicles. Effective control over expenses and maximum utilization of manpower and equipment such as compressor, painting pumps. Arrange the work force to cope with situations such as NGL Plant 1, 2 & 3 and refineries so as to achieve client satisfaction. Control over staff from Sr. Project Engineers, Supervisors, Estimators, Foreman, Technicians and Labor forces etc.
- Turnover achieved during the year 2003 was Ten Million.

❖ 1995 – 2000 : Qatar Protective Coatings & Technical Services Co.

Position : General Manager

Responsibilities:

An organization with 100 employees which includes Project Manager, Site Engineers, Painting Inspectors, Mechanical & Welding Inspectors, Supervisors, Foreman and Mechanical and Labor_force. My duty is to control the overall administration and mechanical operations of the company. The activity includes the following:

- Industrial Painting – Coating & Wrapping – Fire Proofing – Insulation & Scaffolding.
- Non Destructive Testing & Technical Services.
- I.e. Floor Map System for tank bottom plates thickness.
D-Meter testing for tank shell plate thickness, Die check & Magnetic particles.
De-sludging of leaded gasoline tank.
Technical Assistance.

- Other duty includes bidding, costing, recruitment of personnel and purchasing heavy equipment and vehicles. Effective control over expenses and maximum utilization of manpower and equipment such as compressor, painting pumps.
- Arrange the work force to cope with situations such as shutdowns for NGL Plant 1, 2 & 3 and refineries so as to achieve client satisfaction. Control over staff from Sr. Project Engineers, Supervisor, Estimators, Foreman, Technicians and Labor forces etc.

Our technical services are offered mainly to Petrochemical Plants, Oil Refineries, Oil tank farms and cross-country oil pipelines owned by Qatar General Petroleum Corporation (QGPC). Executed various project works in the above field for major companies like National Oil Distribution Co. (NODCO), Qatar Petrochemical Co. Ltd. (QAPCO), Qatar Jet Fuel Company (Qatar Jet), Qatar Steel Co. (QASCQ), Consolidated Contractors International Co. (CCIC) and various other companies in Qatar.

Turnover achieved during past five years:

1995	QAR. 1.2 Million
1996	QAR 8.5 Million
1997	QAR 10.3 Million
1998	QAR 16.5 Million
1999	QAR 17.4 Million

- ❖ 1992 – 1995 : Ras Lanuf Oil & Gas Processing Co.
Ras Lanuf Complex consists of Refinery, Ethylene Plant, Polypropylene Plants Harbor and Utilities.
- Position : Senior Inspection Corrosion Engineer.
- Last Position : Head-Section of Painting Unit.

Responsibilities:

- Supervision: Inspection Engineers, Inspection Technicians and Painting Inspectors.
- Inspection work relating to NDT, welding and materials inspection.
- Corrosion Monitoring: Evaluating corrosion rated by means of E/R & LPR probes as well as coupons using different instruments such as E/I 8000. Corrotor, Corrosion Meter and Potentiodynamic.
- Chemical Treatment: Recommending and evaluating type of chemicals to be used, after testing in the complex – i.e. Refinery Overhead Condensers, Ethylene, Dilution Steam System, Utilities, Boiler, and Cooling Water System in the complex.
- Special Assignment: Failure analysis cases in the complex i.e. Impellers in the Glycol system pumps to study and give solution by writing technical reports.
- Painting Projects: Approving painting specification, method of application and painting procedure proposed by the contractor. Supervising painting project, i.e. Harbor Splash Piles (1350 nos.) and new plants such as Polythene and Polypropylene.

❖ 1977 – 1991 : Kuwait Oil Company K.O.C Ahmadi – Kuwait
Cathodic Protection, Coating, Wrapping & Corrosion
Monitoring.

Position : Inspection Corrosion Engineer.

Last Position : Senior Corrosion Engineer.

Responsibilities:

- Supervision: Of 15 persons, Engineers, Senior Foreman, electricians etc. Our duties to install and maintain 450nos. C.P. Systems scattered all of Kuwait State.

Rectifier reading, potential reading, cable break repair, bonding for our any crossings to avoid any stray current problems.

- **Projects:**

Cathodic Protection project done by: **CAPROCO Limited in Kuwait.**

30" Strategic Pipe Line

160 KM 30" gas pipeline, 20" condensate pipeline: to north Rumallah to G.C. # 15 Northern Kuwait.

Cathodic Protection project at offshore, sea island, new breasting dolphins Kuwait Oil Company – done by Mac Derment Co.

Sea Island Project:

New breasting dolphin, supervising all the steps of coating and material glazing projects.

Al Zour Harbor:

Coating works for 48" hollow piles and structures.

Al Zour Gas Plant:

All painting works using (FBE) Fusion Bonded Epoxy. Paint for all gas pipes internally and externally.

8nos. crude tanks at Ahmadi 450,000 BBL capacity. Follow up all inspection works, NDT technique welding.

For the above works, many tests have been applied: Pull Off Test, Thickness measurement by Elcometer, Adhesion Test by Adhesion Tester, Dollies and Holiday Test, X Ray Weld Test and Water Technical Test.

- Evaluating all rectified readings and potential readings for all areas well castings, marines, tank farms and plants and writing technical reports.

- To install and design work for new systems i.e. calculation ampere current required drawings to show location of TIR and ground bed G/B and rain paints (-ve) for better current distribution as well as to show nearest AC power supply. Material procurement i.e. cable anodes, transformer rectifiers, carbonaceous back fill reference, electrodes cadweld materials.
 - Following all major projects i.e. 30" dia. strategic dolphin at sea island. All works sfor new systems and old systems to install the G/B anode after specification G/B type, deep or shallow for any other type.
 - Commissioning Operation: Before start up the system potential reading to be registered and after commissioning another potential reading to be taken up low ampere reading so as to build up polarization fill and set up ampere required as per design.
 - Corrosion Monitoring: Project for gas pipeline in G.C # 17 West Kuwait done by CAPROCO installing probe i.e. flush mountain, E/R probe, hydrogen probe and coupons, using reactor to pull out the coupons for corrosion rate evaluation with our operation interruption. LPR probe mainly was used in LPG units cooling water system.
- ❖ 1974 – 1977 : Arabian American Oil Company "ARAMCO"
Dhahran Saudi Arabia.

Position : Corrosion Engineer with Engineering Department.

Responsibilities:

- To assist Senior Inspection Corrosion Engineer & Engineers for collecting data and investigation regarding the work experiments. Writing technical reports and data tabulation, graphs, probe readings, ultrasonic readings.
 - Scope of work mainly concerned with water injection project. Following practical experiment i.e. AD 160 small pilot plant producing well with help of gas lift, water lift, separator, de sander, piping for monitoring corrosion rate by evaluating probe readings ultrasonic and coupons, using different inhibitors to Exxon, petrolite, Champion etc., and issuing recommending by our work leader to decide suitable inhibitor to be used.
 - Wrapping work for maintenance: In case there is a leak rapture for water injection pipes network, we follow the application of wrapping procedure.
- ❖ 1973 – 1974 : Kuwait Industrial Refinery Maintenance & Engineering Co. SAK, "KREMCNCO"

Position : Junior Engineer.

Responsibilities:

- Taking contract for oil companies for chemical cleaning and maintenance shutdown in the refineries.

NOTE:

1. Attended the 4th Middle East Conference 1988 – Bahrain
2. Attended 1st Arab Conference on Corrosion – Kuwait
3. Attended NACE' 90 at Las Vegas, USA 1990

EXPERIENCE

2018 Oct - Present : **Project Manager for M/s. TRAGS for Painting Works of Tank T-10 at Mesaieed.**

Project Manager for M/s. HBK Contracting for Supply and Application of Epoxy Coating and Road Marking Works - New HBK HQ Project.

2017 Oct - Present : **Project Manager for M/s. CCC for Hamad International Airport Jet A-1 Supply Project – Blasting & Painting Works.**

		Project Manager for M/s. HBK Contracting for Supply & Application of Intumescent Fireproofing Paints to Structural Steel & Architecturally Exposed Structural Steel – Qatar Academy, Al Wakra.
2015 Jan - Present	:	Project Manager for Qatar Gas for Contract No. LTC/C/MNT/1099/14 - Painting of Tank Farm Area on Call-Off Basis at Ras laffan.
		Project Manager for Qatar Petroleum for Contract No: GC131098A0 - Painting, Insulation, Vinyl Ester Wrapping Services on a Call-Off Basis in Dukhan Fields – Field Support Department.
2015 Jan – 2017 Jul	:	Project Manager for Qatar Gas for Contract No. LTC/OP/1659/11 - Internal Re-Coating of Condensate Storage Tanks on Call-Off Basis.
2016 Jan - 2017 May	:	Project Manager for M/s. HBK Contracting Supply & Application of Intumescent Fireproofing Paints to Structural Steel & Architecturally Exposed Structural Steel – Qatar Academy, Al Khor.
2015 Jan – 2017 Jan	:	Project Manager for HBK Contracting for Supply & Application of Intumescent Fireproofing Paints to Structural Steel - Musheireb Downtown Doha Project, Phase 3.
2015 Jan – 2017 Sep	:	Project Manager for Qatar Petroleum for Contract No: GC12100300 - Provision of Maintenance Painting & Scaffolding Works in Ras Laffan Industrial City.
2012 Jan – 2014 Dec	:	QA/QC Manager for Qatar Petroleum for Contract No: GC131098A0 - Painting, Insulation, Vinyl Ester Wrapping Services on a Call-Off Basis in Dukhan Fields – Field Support Department

QA/QC Manager for Archirodon for EPIC for New Desalination Plant and Potable Water Storage Tanks at Halul Island, State of Qatar - Internal and External Coating of Potable Water Tanks and Scaffolding Works.

QA/QC Manager for QCON for Pipe Painting Works for Barzan - Off Plot - General Works at Ras Laffan.

QA/QC Manager for Qatar Petroleum for Contract No: GC12100300 - Provision of Maintenance Painting & Scaffolding Works in Ras Laffan Industrial City.

QA/QC Manager for Qatar Gas for Contract No. LTC/OP/1659/11 - Internal Re-Coating of Condensate Storage Tanks on Call-Off Basis.

QA/QC Manager for Al Jaber Engineering for EPIC for Wet Utilities Distribution Network for Support Service Area Phase 1 & II and Mains Network for Ongoing Developments at West End Extension, Ras Laffan – Surface Preparation and Painting of Carbon Steel Pipes & Pipe Support (Structural Steel).

2011 Jan – 2011 Dec : QA/QC Manager for Punj Lloyd Ltd. for Internal Lining & External Coating of Fire Water Spools & Pipes - SGTP Project.

2010 Nov – 2011 Jan : QA/QC Manager for Consolidated Contractors S.A.L. (Offshore) CCC – Teyseer Contracting Company W.L.L. JV for EPIC of Berths & Port Infrastructure for Ras Laffan Port Expansion Project – Coating of Corrugated Beams.

2010 May – 2012 Dec : QA/QC Manager for Black Cat for Project GC09102200/FP - EPIC of Sweet Fuel Gas Supply to Dukhan Consumers, Blasting, Painting & Wrapping Scope at HBK Yard in Doha.

QA/QC Manager for Black Cat for Epic for Produced Water Treatment & Injection Phase-2 Project - Blasting & Coating of Pipe and Structure.

2010 March	:	Joined HBK Group of Companies.
2007 Nov – 2010 Mar	:	Worked with M/s. Qatar Engineering & Const. Co. (Qcon) as Planner / Procurement.
2006 Mar – 2007 Oct	:	Worked with M/s. Premium Media Agency as Business Development Officer.

EXPERIENCE

2017 Dec – Present : Project Manager for Dopet for Turnaround
Shutdown for RFCC, Crude Refinery 2, Utilities &
GRTA in 2017 at QP Refinery, Mesaieed - Painting
and Scaffolding Works.

2012 April – 2016 Apr : Project Manager for QP Contract No. GC10109800 –
Refurbishment of Protective Coatings & Repair/
Replacement of Pipe Support at Offshore Locations.

2011 Aug – Present : Project Manager for OXY Contract No. CA 2100 –
Provision of Coating Refurbishment – ISND Remotes.

2009 May – 2015 June : Project Manager for RasGas Contract No.
CT/RG35/G244/08 – Refurbishment of Offshore
Protective Coating.

2007 June – 2011 July	:	Project Manager for OXY Contract No. CA 1815 – Refurbishment of Coatings at PS-1 Offshore Station.
2004 Aug – 2009 Dec	:	Project Manager for QP Contract No. GTC04/129R/MCO – Refurbishment of Protective Coatings at Offshore Locations.
2004 Aug – 2006 Dec	:	Project Manager for OXY Contract No: CA 1561 - Refurbishment of Protective Coatings at PS-1 Field.
2002 Aug. – 2004 July	:	Project Control Manager for C.C.I.C., Ras Laffan Common Cooling Water System Project for Provision of External Painting Subcontract Work.
2001 Dec – 2002 July	:	Sr. Painting Supervisor for QP Contract GTC 102/MCO/01 Refurbishment of Protective Coatings at Offshore locations – PS-4.
2000 March – 2001 Nov	:	Sr. Painting Supervisor for SHINWHA for NODCO Refinery Expansion Project, Mesaieed.
1998 Aug – 2000 Jan	:	Supervisor for Refurbishment of Protective Coatings at Offshore Locations GTC 194/97 at PS-4.
1998 Jan – 1998 July	:	Supervisor/Inspector for Reinforced Epoxy Glass Fiber Coating at Water Storage Tanks - Al Udeid.
1997 Aug – 1997 Dec	:	Supervisor at PS-4 for Refurbishment of Protective Coatings at Offshore Locations GTC 111/96.
1996 Jan – 1997 July.	:	Supervisor for Shinwha – Qatar Gas Upstream Development Project at Ras Laffan.
1994 - 1995	:	Painting Supervisor for Maintenance Painting Services at Offshore Locations - GTC 149/93 at PS-3
1993 – 1994	:	Inspector for Repainting of NODCO Storage Tanks.
1993 July	:	Inspector for Blasting and Painting of Desalination Units at Ras Abu Aboud for Ministry of Electricity and Water.
1992 - 1993	:	Shutdown painting works for TRAGS at PS-2C.

1991 - 1992	:	Refurbishment of Protective coatings at Halul Bldg.
1990 - 1991	:	Annual shutdown works at QAPCO.
1988 - 1990	:	As Foreman for shutdown works at Offshore PS1, 2&3.
1987 - 1988	:	As Foreman for Replacement of Elevated Water tanks at Cable and Wireless and Rumaillah for Ministry of Electricity and Water.
1986 - 1987	:	As Foreman for various painting works carried out at our yard.
1986	:	Joined HBK Group of Companies.

2015 Jan – Apr 2016	:	QA/QC Manager for M/s. Qatar Petroleum, Contract No: GC10109800 - Refurbishment of Protective Coatings & Repair/Replacement of Pipe Support at Offshore Locations.
2014 Jan – Dec 2014	:	Asst. QA/QC Manager for M/s. Qatar Gas for Contract No. LTC/OP/1659/11 - Internal Re-Coating of Condensate Storage Tanks on Call-Off Basis.
2014 Jan – Dec 2014	:	Asst. QA/QC Manager for M/s. Qatar Petroleum, Contract No: GC10109800 - Refurbishment of Protective Coatings & Repair/Replacement of Pipe Support at Offshore Locations.
2014 Jan – Dec 2014	:	Asst. QA/QC Manager for M/s. Qatar Petroleum, Contract No: GC12100300 - Provision of Maintenance Painting & Scaffolding Works in Ras Laffan Industrial City.
2013 Jan – Dec 2013	:	QC Inspector for M/s. Qatar Petroleum, Contract No: GC10109800 - Refurbishment of Protective Coatings & Repair/Replacement of Pipe Support at Offshore Locations.
2012 June – Dec 2012	:	QC Inspector for M/s. OXY for Contract No. CA 2100 – Provision of Coating Refurbishment – ISND Remotes.
2010 Nov – May 2012	:	QC Inspector for M/s. RasGas for Contract No. CT/RG35/G244/08 – Refurbishment of Offshore Protective Coating.
2010 May – Oct 2010	:	QC Supervisor for M/s. Black Cat for Project GC09102200/FP – Blasting, Painting & Wrapping works at HBK Yard in Doha.
2008 Jan – April 2010	:	QC Supervisor for M/s. OXY for Contract No. CA 1815 – Refurbishment of Coating at PS-1 Offshore Station.

2007 Jan – Dec 2007	:	QC Supervisor for Hyundai Eng. & Const. Ltd. for Painting Works – QAFCO 5 (Ammonia & Urea) & QAFCO 6 Project at HBK Yard in Doha.
2005 Jan – Dec 2006	:	QC Supervisor for M/s. Halul Offshore for OXY Contract No. CA 1561 – Refurbishment of Protective Coating at Offshore Structures, PS-1 Field.
2004 Jan – Dec 2004	:	QC Supervisor at HBK Yard for various projects with M/s. CCC, DOPET, Black Cat, OXY etc.
2004 Jan	:	Joined HBK Power Cleaning W.L.L.

Certificate

***This is to certify that Suresh Paruvan Parambil Raghavan was
examined
on 26 September 2010 in accordance with the BGAS-CSWIP
approval scheme.***

Approval attained:

Painting Inspector Grade 2

Certificate Number: 49817

Date of Issue: 14 October 2010

Date of Expiry: 25 September 2020

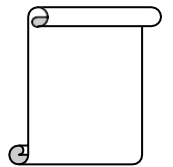

Issuing Officer:

*Enquiries concerning this certificate may be addressed to:
BGAS-CSWIP Approval Scheme, TWI Customer Services, Granta Park,
Great Abington, Cambridge CB21 6AL
Telephone: +44 (0) 1223 899500
Telefax: +44 (0) 1223 891630*

***PROSPECTIVE EMPLOYERS SHOULD ALWAYS ASK TO SEE THE
CERTIFICATE HOLDER'S ID CARD***

PREQUALIFICATION DOCUMENT

..... **HSE**

1.0 EHS POLICY

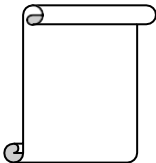

HBK Oil & Gas Services W.L.L. considers as a Fundamental Management Policy to establish best practices for Protection of Environment, Health and Safety of Employees, Suppliers, Customers and Neighboring Communities, thereby ensuring operations and activities are carried out in a Safe, Healthy and Environmentally responsible manner.

In applying this policy, **HBK Oil & Gas Services W.L.L.** shall:

- a) Appoint a competent EHS Coordinator who with the Cooperation & Consultation of the General Manager, Department Heads and Work Force comply to the EHS requirements
- b) Comply with local Environmental, Health and Safety Rules and Regulations.
- c) Conduct Hazard & Risk Assessments for all the activities.
- d) Identify Environmental Aspects and Impacts for all the operations.
- e) Provide awareness & appropriate training to employees at all levels.
- f) Provide Personal Protective Equipment as required.
- g) Provide task worthy Plant/Equipment/Tools and road worthy Vehicles with appropriate guards wherever required.
- h) Communicate **HBK Oil & Gas Services** commitment to Environment, Health & Safety to Employees, Suppliers, Customers and Neighboring Communities.
- i) Record, measure and analyze input data relating to EHS for Continual Improvement.

RESOURCES & FACILITIES

Resources & Facilities

Hamad Bin Khalid Oil & Gas Services Co. boasts an excellent potential capacity both in manpower and resources. With our highly skilled and experienced workforce, backed up by well maintained plant and equipment and assisted by computer network.

HBK Oil & Gas Services Co. can utilise its resources to meet the most demanding operational requirement, by providing a complete, efficient and flexible service to meet our Clients' need.

PLANT AND EQUIPMENT

We have quite a big fleet of air compressors, spray pumps, blast pots and specialised accessories, high pressure washers, Auto blast machine, recovery systems, generators, scaffolding, forklifts, trailers, cranes, buses, saloon cars, pick-up trucks which are sufficient to meet any challenge.

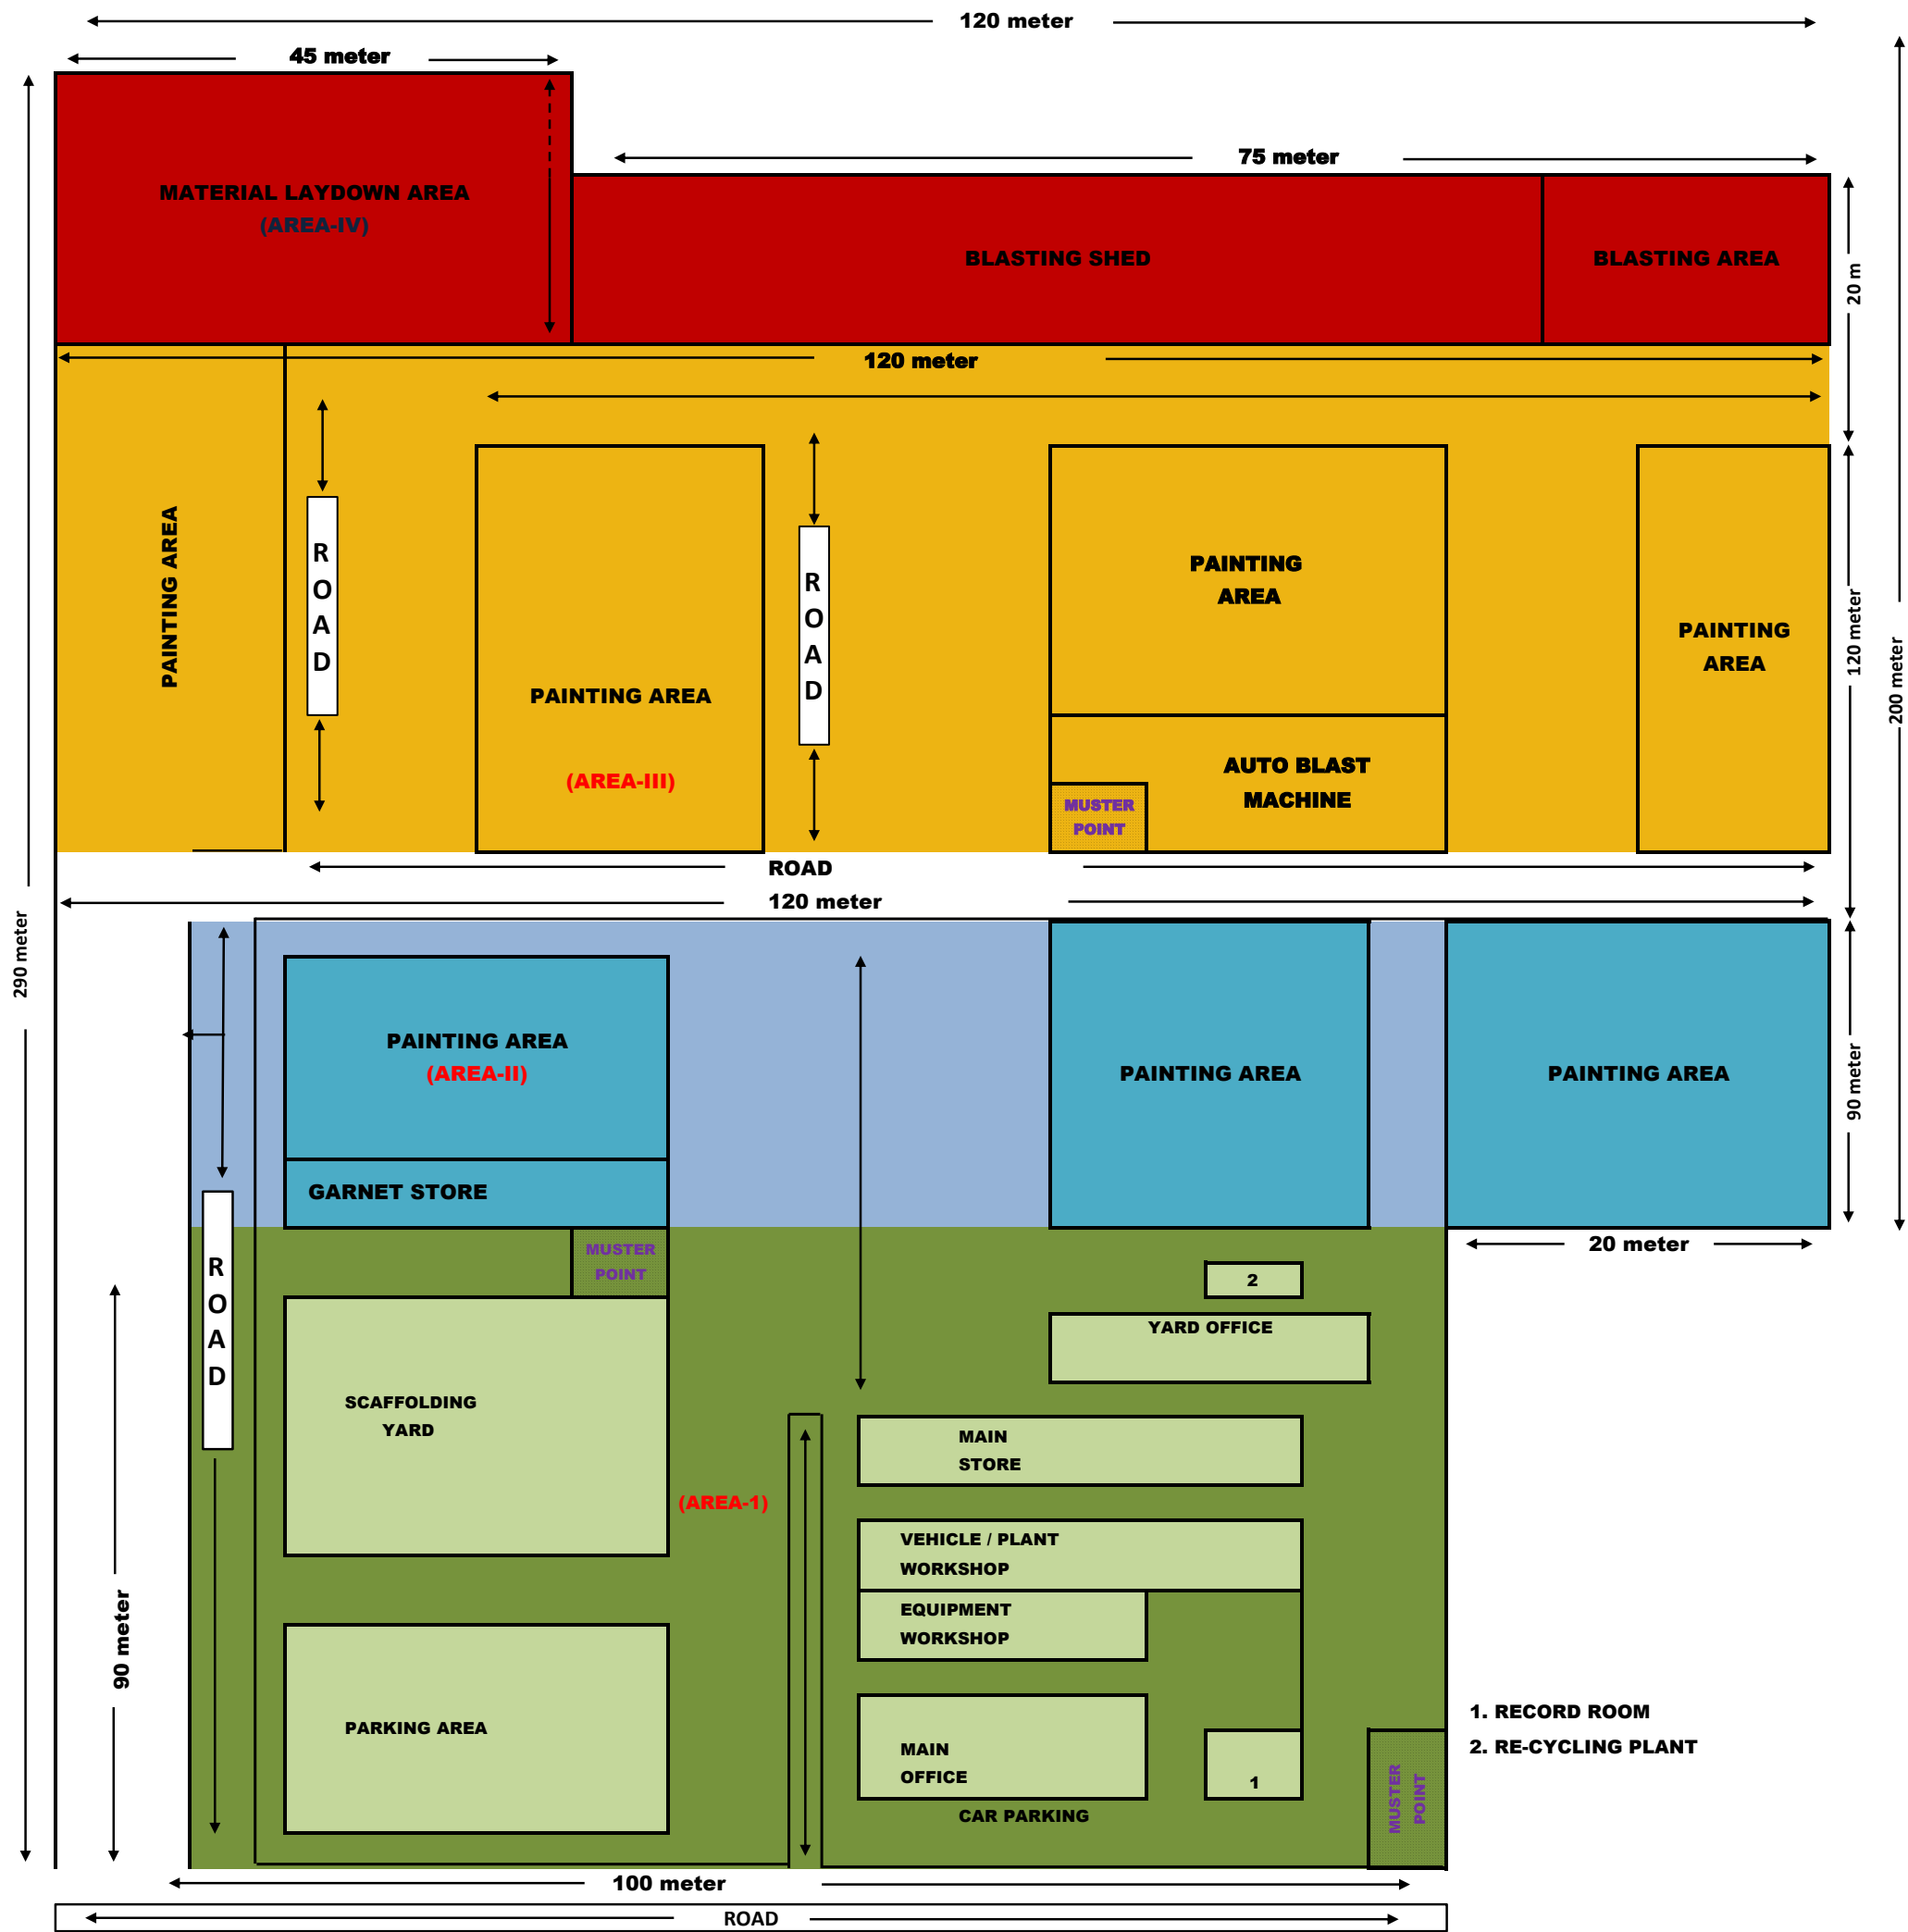

WORKSHOP FACILITIES

We have a well equipped workshop sufficiently manned with competent mechanical personnel. We carry out in-house repairs of our plants and equipments at our workshop. Our workshop is located in our yard at Salwa Road near the Central Vegetable Market. We have enough resources in our site to take care of and carry out routine maintenance of our plant/equip. at site.

QUALITY CONTROL TEST & MEASUREMENT INSTRUMENTS

	Instrument	Type		Qty	Remarks
1	Adhesion Tester	Elcometer 108		2	Testing Paint Adhesion
2	Standard Shim Set	Elcometer		12	Calibration standards
3	D.F.T. Gauge	Elcometer 345		15	Measure DFT
4	Digital dew Point Calculator	Elcometer 319 S		1	Calculate humidity/dew point
5	Dew Point Calculator	Elcometer 114		16	Calculate humidity/dew point
6	Digital Thermometer	Elcometer 213		1	Sensitive Thermometer
7	DC Holiday Detector	Elcometer 105		7	Coating Porosity Detection
8	Paint Inspection Gauge	Elcometer 121		1	Cutting, Microscopic Insp
9	Profile Gauge	Elcometer 123		2	Measure Surf Amplitude
10	Psychometric Chart	Elcometer 117		1	Climatic Cond Monitor
11	Salts Detector	Elcometer SCM 400		1	Detects Salt in Substrate
12	Salts Detector	Elcometer 138		2	Detects Salt in Substrate
13	Salts Detector for abrasive	Elcometer 134 A		10	Detects Salt in abrasive
14	Steel Temp Gauge	Elcometer 113		14	Magnetic Temp Gauge
15	Thickness Gauge 124	Elcometer 124		15	Used with Testex Tape
16	Whirling Hygrometer	Elcometer 116		14	Measure Humid/Dew Point
17	W.F.T Comb	Elcometer 115		20	Measure WFT
18	Steel thickness Gauge	Elcometer	Ultrasonic	4	Measure wall Thickness
19	Hypodermic Needle Gauge	Elcometer 102		8	Pressure rating in Air/Blast hoses
20	Surface Comparator	SSPC, SIS Standard		3	Degree of cleanliness
21	Pinhole Detector	Elcometer 270		1	Pin hole detection

All Test and Measurement Instruments Calibrated as per International Standards

NB Above listed test instruments are at our sole disposal and we confirm to meet any requirement encountered during the execution of contract.
